## PROJECTS

---

Good Grocery — *MERN Stack* — [GitHub](#)

- Good Grocery is an online platform offering farm-fresh groceries for convenient daily ordering, enhancing accessibility and efficiency for users.
- Utilized Razorpay payment gateway integration to streamline order transactions, enhancing accessibility. Additionally, introduced features such as quick access to frequently ordered items and push notifications to improve user experience.

Meraki Platina — *HTML-CSS-JS* — [GitHub](#)

- Designed and developed a custom landing page utilizing HTML, CSS, and JavaScript tailored to a builder's website showcasing new property offerings.
